FOR IMMEDIATE RELEASE

***INDUSTRY FIRST* - Neptune HP PROTECTUS® III and Neptune HP Fire Service Turbine Receive ANSI/NSF61 Certification**

TALLASSEE, ALABAMA [January 24, 2008] – On December 7, 2007, Neptune's High Performance (HP) PROTECTUS® III 4"-10" and HP Fire Service Turbine meters 3" through 10" received official confirmation from the National Sanitation Foundation (NSF) that they are NSF 61 certified.

NSF International, founded in 1944, is an industry leader in the development of standards, product testing and certification services in the areas of public health, safety and protection of the environment.

With this approval the list of Neptune NSF 61 certified products is as follows:

- Neptune T-10® Meters 5/8"- 2"
- Neptune HP Tru/Flo® Compound Meters 2"
- Neptune Tru/Flo Compound Meters 3" - 6"
- Neptune HP Turbine Meters 1½" - 10"
- Neptune HP Protectus® III Meter Assembly 4"-10"
- Neptune HP Fire Service Turbine Meters 3"-10"
- Neptune Strainers 2", 3", 4", 6", 8", 10"
- Aquity® Meter 5/8" - 2"

A listing of certified products can be found at the NSF website: <http://www.nsf.org>

The NSF61 certification of the HP Protectus® III and the HP Fire Service Turbine is an industry first.

About Neptune Technology Group Inc.

Neptune Technology Group Inc., a pioneer in the development of Automatic Meter Reading (AMR) technology for more than 43 years, is a leading provider of data collection systems which are used to read more than 59 million meters per month. Since 1892 Neptune has continually focused on the evolving needs of utilities – revenue optimization, optional efficiencies, and improved customer service. Neptune continues to broaden its focus beyond automatic meter reading and metering to include service orders and meter asset management and to extend this capability to electric and gas utilities. Neptune provides utility automation software touching over 96 million connected customers throughout North America. For additional information, please visit the company website at www.neptunetg.com.
