

AMERICAN RECOVERY AND REINVESTMENT ACT FUNDING

MAKE SURE THE METERING PRODUCTS AND AMR/AMI SYSTEM YOU PLAN TO BUY QUALIFY!

No doubt you've heard of how the Government's Stimulus Plan is giving utilities the opportunity to implement much needed system and infrastructure upgrades in their communities. But did you know what metering products and AMR/AMI systems are eligible for those funds?

Neptune has done extensive research into the requirements of the American Recovery & Reinvestment Act (the "ARRA"). Neptune is proud to say that we meet the Buy American provisions of the ARRA.

Those utilities buying Neptune ARB® Utility Management Systems™ and products will know that they are compliant with the ARRA requirements.

Before you proceed, please contact your Neptune Territory Manager or Distributor. They will be pleased to provide information on which products are eligible for ARRA funding and which are likely to require a waiver.

Neptune Technology Group is proud to provide the highest quality products and systems. We look forward to continuing to be your **most valued partner**.
